

CALL For PROGRAMS 2019

JUL.1, 2018~SEP.30, 2018

The Asia Pacific Center for Theoretical Physics (APCTP) is an international scientific organization which pursues the highest quality research in all areas of theoretical physics and promotes cooperation among scientists from its member countries or Asia Pacific regions and beyond. With these goals, APCTP invites proposals for programs of the fiscal year 2019 (from March 2019 to February 2020) as detailed below. Proposals and feedbacks from scientific community are crucial for determining activities of APCTP, and the selected proposals will constitute its core activities.

APCTP programs are categorized as follows.

Category 1

: **Conferences, Workshops, and Schools**

- Aim to initiate international research activities
- Discuss frontier research topics or educate young scientists
- Contribute to forming research cooperation networks among diverse physics groups and organizations.

Category 2

: **Focus (intensive) research programs**

- Aim to have profound discussions on focused research topics
- Held at the headquarters of APCTP and the number of participants is limited

Category-3

: **Topical research programs**

- Aim to develop international collaborations among local research groups and communities and to integrate into Asia-Pacific communities.
- Discuss selected research topics and recent hot topics through a series of mini workshops and/or seminars.

Category-4

: **Activities in member countries and MOU-based joint programs**

- Aim to promote scientific activities in member countries or joint programs with partnership institutions
- A **supporting letter** issued by a general council member or partnership institutions is necessary unless it is an MOU-based program.

Program organizers are kindly asked to submit proposals through APCTP website from July 1, 2018 until September 30, 2018. The selected proposals will be announced in late December. For better communication between the organizers and APCTP, we recommend that proposals include Korean liaison(s) if the program will be held outside Korea. If unavailable, please contact APCTP before submitting the proposal.

APCTP also hosts short and long-term visits by researchers or small research groups from, but not limited to, the Asia Pacific regions as well as renowned scholars. Visitors are expected to collaborate with APCTP research groups and to participate in the scientific activities such as seminars and workshops at APCTP.

More details on the application and running programs can be found at <https://www.apctp.org>. Should you have any question, please contact sec@apctp.org.
